IhSIS Failure Error Codes Catalog Reference

DEMO

PROVID	StartPosition	1	Length:	10	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
---------------	---------------	---	---------	----	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
001-01	1	PROVID_Length	Length Check for CONTRACTORID Field
001-02	1	PROVID_Hyphen	Verification that there is a hyphen in the third character position
001-03	1	PROVID_Numeric1	Verification that the first two characters are numeric
001-04	1	PROVID_Numeric2	Verification that the last seven characters are numeric
001-05	7	PROVID_Value	Verification that CFBHN's Contractor ID has been provided as the value

SSN	StartPosition	11	Length:	9	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
------------	---------------	----	---------	---	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
002-01	3	SSN_Length	Length Check for SSN Field
002-02	22	SSN_Not9	Verification that if this is a Real SSN that the first character is not 9
002-03	22	SSN_Not000	Verification that if this is a Real SSN that the first three characters are not 000
002-04	22	SSN_Pseudo_FirstInitial	Verification that if this is a Pseudo SSN that the first character matches the First Initial
002-05	-1	SSN_Pseudo_MiddleName_NotNMN	Precheck only to verify a Middle Name is not "NMN"
002-06	-1	SSN_Pseudo_MiddleName_IsNMNOrX	Precheck only to verify a Middle Name of "NMN"
002-07	22	SSN_Pseudo_MiddleInitial	Verification that if this is a Pseudo SSN that the second character matches the Middle Initial
002-08	22	SSN_Pseudo_MiddleInitialsX	Verification that if this is a Pseudo SSN that the second character is "X"
002-09	22	SSN_Pseudo_LastInitial	Verification that if this is a Pseudo SSN that the third character matches the Last Initial
002-10	22	SSN_Pseudo_Month	Verification that if this is a Pseudo SSN that the fourth and fifth characters match the Month of Birth
002-11	22	SSN_Pseudo_Day	Verification that if this is a Pseudo SSN that the sixth and seventh characters match the Day of Birth
002-12	22	SSN_Pseudo_Year	Verification that if this is a Pseudo SSN that the eighth and ninth characters match the Year of Birth
002-13	-1	SSN_SSNU_DoesNotExist	Verification that the SSN does not exist in the SSNU table.
002-14	-1	SSN_NotAContiguousOrRepeatingNumber	Verification that the SSN does contain the same number for all positions
002-15	-1	SSN_Pseudo_FirstInitial_IsLetter	
002-16	-1	SSN_Pseudo_MiddleInitial_IsLetter	
002-17	-1	SSN_Pseudo_LastInitial_IsLetter	

LNAME	StartPosition	30	Length:	35	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
--------------	---------------	----	---------	----	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail
 004-01 4 LNAME_Present Length Check for LAST Field

FNAME	StartPosition	65	Length:	35	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
--------------	---------------	----	---------	----	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail
 005-01 5 FNAME_Present Length Check for FIRST Field

MNAME	StartPosition	100	Length:	14	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
--------------	---------------	-----	---------	----	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail
 006-01 6 MNAME_Present Length Check for MIDDLE Field

DOB	StartPosition	124	Length:	8	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
------------	---------------	-----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail
 008-01 8 DOB_IsDate Verification of Valid Date for DOB Field
 008-02 13 DOB_BeforeReceiptDate Verification of that the DOB is less than the Receipt Date for the file
 008-03 23 DOB_YoungerThan110Years Verification of that the DOB is less 110 Years before Today

GENDER	StartPosition	132	Length:	1	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
---------------	---------------	-----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail
 009-01 9 GENDER_InList Verification of Valid Value for GENDER Field

RACE	StartPosition	133	Length:	1	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-------------	---------------	-----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail
 010-01 10 RACE_InList Verification of Valid Value for RACE Field

ETHNIC	StartPosition	134	Length:	1	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
---------------	---------------	-----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail
 011-01 11 ETHNIC_InList Verification of Valid Value for ETHNIC Field

SPROVID	StartPosition	155	Length:	10	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
----------------	---------------	-----	---------	----	------------	------	-----------	------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail
 013-01 12 SPROVID_Value Verification that the Contractor ID is specified in the tblProviderSubProvider table
 013-02 -1 SPROVID_Hyphen Verification that there is a hyphen in the third character position
 013-03 -1 SPROVID_Numeric1 Verification that the first two characters are numeric

013-04 -1 SPROVID_Numeric2 Verification that the last seven characters are numeric

013-05 -1 SPROVID_Valid

CONTNPI	StartPosition	165	Length:	10	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	-----	---------	----	------------	-------	-----------	-------	-------------------------------	-------

Failure Code ^{DCF}_{Code} Data Validation

Additional Description Detail

014-02 -1 CONTNPI_ClearInvalid

Verification that the NPI is specified in the tblProviderSubProvider table

SERVNPI	StartPosition	175	Length:	10	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	-----	---------	----	------------	-------	-----------	-------	-------------------------------	-------

Failure Code ^{DCF}_{Code} Data Validation

Additional Description Detail

015-02 -1 SERVNPI_ClearInvalid

Verification that the NPI is specified in the tblProviderSubProvider table

ASAM

PROVID	StartPosition	1	Length:	10	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
---------------	---------------	---	---------	----	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
001-01	-1	PROVID_Length	Length Check for CONTRACTORID Field
001-02	-1	PROVID_Hyphen	Verification that there is a hyphen in the third character position
001-03	-1	PROVID_Numeric1	Verification that the first two characters are numeric
001-04	-1	PROVID_Numeric2	Verification that the last seven characters are numeric
001-05	1	PROVID_Value	Verification that CFBHN's Contractor ID has been provided as the value

SSN	StartPosition	11	Length:	9	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
------------	---------------	----	---------	---	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
002-01	2	SSN_Length	Length Check for SSN Field
002-03	2	SSN_Not000	Verification that if this is a Real SSN that the first three characters are not 000
002-14	???	SSN_DEMO_Exists_Cached	Verification that the SSN exists in the DEMO or DEMO Monolith table.

ADMIDATE	StartPosition	20	Length:	8	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	----	---------	---	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
003-01	6	ADMIDATE_IsDate	Verification that the value is a date
003-03	7	ADMIDATE_OnOrBefore_CD	Verification that the value is less than than the Current Date
003-05	-1	ADMIDATE_OnOrBefore_ENDDATE	Verification that the value is less than than the End Date
003-06	8	ADMIDATE_OnOrAfter_DOB_Cached	Verification that the value is greater than the DOB
003-07	11	ADMIDATE_HasMatchingOUTI	

PURPOSE	StartPosition	28	Length:	1	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	---	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
004-01	4	PURPOSE_InList	Verification that the value is valid
004-05	-1	PURPOSE_ASAMDATE_IsDate	
004-06	-1	PURPOSE_ADMIDATE_IsDate	
004-07	-1	PURPOSE_CompareToExisting	

SPROVID	StartPosition	29	Length:	10	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	----	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
005-01	31	SPROVID_Value	Verification that the Contractor ID is specified in the tblProviderSubProvider table

005-02	-1	SPROVID_Hyphen	Verification that there is a hyphen in the third character position
005-03	-1	SPROVID_Numeric1	Verification that the first two characters are numeric
005-04	-1	SPROVID_Numeric2	Verification that the last seven characters are numeric
005-05	31	SPROVID_Valid	

ASAMDATE	StartPosition	39	Length:	8	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	----	---------	---	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
006-01	9	ASAMDATE_IsDate	Verification that a valid Date was provided
006-02	10	ASAMDATE_BeforeReceiptDate	Verification of that the value is less than the Receipt Date for the file
006-04	11	ASAMDATE_OnOrAfter_DOB_Cached	Verification that the value is greater than the DOB
006-05	11	ASAMDATE_OnOrAfter_ADMIDATE	

SAPROG	StartPosition	47	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
---------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
007-01	-1	SAPROG_Length	Length Check for the Field
007-02	13	SAPROG_InList	Verification that the value is valid

RECLOC	StartPosition	48	Length:	2	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
---------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
008-01	-1	RECLOC_Length	Length Check for the Field
008-02	14	RECLOC_InList	Verification that the value is valid
008-03	14	RECLOC_Value	Verification that the value is valid

PLACETYPE	StartPosition	50	Length:	2	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
------------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
009-01	-1	PLACETYPE_Length	Length Check for the Field
009-02	13	PLACETYPE_InList	Verification that the value is valid
009-03	13	PLACETYPE_Value	Verification that the value is valid

BEGDATE	StartPosition	52	Length:	8	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
010-01	-1	BEGDATE_Present	Verification that a value was provided
010-02	16	BEGDATE_IsDate	Verification that a valid Date was provided
010-03	17	BEGDATE_OnOrBefore_CD	Verification that the value is less than the Current Date

010-04	-1	BEGDATE_PURPEVAL_Is1_InList	Verification that the PURPEVAL is 2 or 3
010-05	-1	BEGDATE_PURPEVAL_Is2Or3_InList	Verification that the PURPEVAL is 2 or 3
010-06	17	BEGDATE_OnOrAfter_ASAMDATE	Verification that the value is greater than or equal to the ASAM Date
010-07	-1	BEGDATE_OnOrBefore_ASAMDATE	Verification that the value is less than the ASAM Date
010-08	17	BEGDATE_OnOrAfter_ADMIDATE	Verification that the value is greater than or equal to the ASAM Date

ENDDATE	StartPosition	60	Length:	8	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
011-01	22	ENDDATE_Present	Length Check for the Field
011-02	16	ENDDATE_IsDate	Verification that a valid Date was provided
011-03	17	ENDDATE_OnOrAfter_BEGINDATE	Verification that the value is greater than the BEGINDATE Date
011-04	17	ENDDATE_OnOrBefore_CD	Verification that the value is less than the Current Date

CONTID1	StartPosition	68	Length:	5	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
012-01	1	CONTID1_Present	Verification the the field is present if required
012-02	-1	CONTID1_Length	Length Check for the Field
012-03	N/A	CONTID1_IsNotAPC	
012-04	N/A	CONTID1_IsNot00000	
012-05	-1	CONTID1_Not00000_IsAPC	Valid value if not 00000
012-06	W40	CONTID1_NotAPC_00000	Is 00000 if not AllowedPrimaryContractValue

CONTID2	StartPosition	73	Length:	5	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
013-01	1	CONTID2_Length	Length Check for the Field

CONTID3	StartPosition	78	Length:	5	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
014-01	1	CONTID3_Length	Length Check for the Field

STAFFID	StartPosition	83	Length:	12	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	----	------------	-------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
015-01	-1	STAFFID_Hyphen	Verification that there is a hyphen in the third character position
015-02	-1	STAFFID_Numeric1	Verification that the first two characters are numeric

015-03 -1 STAFFID_InList_First2

Verification that the first two characters are valid

015-04 -1 STAFFID_Numeric2

Verification that the characters after the hyphen (up to 9) are numeric

CFARS

SSN	StartPosition	1	Length:	9	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
Failure Code	DCF Code	Data Validation			Additional Description Detail					
001-01	35	SSN_Length			Length Check for SSN Field					
001-03	35	SSN_Not000			Verification that if this is a Real SSN that the first three characters are not 000					
001-14	???	SSN_DEMO_Exists_Cached			Verification that the SSN exists in the DEMO or DEMO Monolith table.					

PROVID	StartPosition	10	Length:	10	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
Failure Code	DCF Code	Data Validation			Additional Description Detail					
002-01	1	PROVID_Length			Length Check for CONTRACTORID Field					
002-02	1	PROVID_Hyphen			Verification that there is a hyphen in the third character position					
002-03	1	PROVID_Numeric1			Verification that the first two characters are numeric					
002-04	1	PROVID_Numeric2			Verification that the last seven characters are numeric					
002-05	1	PROVID_Value			Verification that CFBHN's Contractor ID has been provided as the value					

PURPOSE	StartPosition	20	Length:	1	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
Failure Code	DCF Code	Data Validation			Additional Description Detail					
003-01	4	Purpose_inlist			Purpose value 1 -> 5					
003-02	-1	PURPOSE_CFARDATE_GTEExisting			Checks if the submitted Purpose code is greater than an existing purpose code					
003-03	-1	PURPOSE_CFARDATE_EQExisting			Checks if the submitted Purpose code is equal to an existing purpose code					
003-04	-1	PURPOSE_CFARDATE_LTEExisting			Checks if the submitted Purpose code is less than an existing purpose code					

CFARDATE	StartPosition	21	Length:	8	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
Failure Code	DCF Code	Data Validation			Additional Description Detail					
004-01	5	CFARDATE_IsDate			Verification that the value is a date					
004-03	6	CFARDATE_OnOrBefore_CD			Verification that the value is less than than the Current Date					
004-04	-1	CFARDATE_GTELastCFARDATE								
004-05	7	CFARDATE_OnOrAfter_DOB_Cached			Verification that the value is greater than the DOB					

SPROVID	StartPosition	29	Length:	10	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
Failure Code	DCF Code	Data Validation			Additional Description Detail					
005-01	3	SPROVID_Value			Verification that the Contractor ID is specified in the tblProviderSubProvider table					
005-02	3	SPROVID_Hyphen			Verification that there is a hyphen in the third character position					

005-03	3	SPROVID_Numeric1	Verification that the first two characters are numeric
005-04	3	SPROVID_Numeric2	Verification that the last seven characters are numeric
005-05	3	SPROVID_Valid	

PROGPURPEVAL	StartPosition	39	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
---------------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
006-01	4	PROGPURPEVAL_PURPOSE_NOA	Verification if PURPOSE=5 (NOA) then PROGPURP value 1 -> 5
006-02	4	PROGPURPEVAL_6OrBlank	Verification if purpose 1 through 4 then purpurp = 6
006-03	4	PROGPURPEVAL_inlist	Program Purpose value 1 -> 6
006-04	4	PROGPURPEVAL_PURPOSE_Not5	verifies if the PROGPURPEVAL is a value of 5

EDUCATION	StartPosition	40	Length:	2	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
------------------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
007-01	9	EDUCATION_inlist	EDULEVEL value 01;02;03;04;05;06;07

RATERID	StartPosition	42	Length:	9	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
008-01	10	RATERID_Length	Length Check for FMHINUM Field
008-02	10	RATERID_Numeric	Verification that the characters are numeric

SAHIST	StartPosition	51	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
---------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
009-01	11	SAHIST_PURPOSE_NE4	Verification if PURPOSE!=4
009-02	11	SAHIST_Inlist	Valid value

DEPRESS	StartPosition	52	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	True
----------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	------

Failure Code	DCF Code	Data Validation	Additional Description Detail
010-01	14	DEPRESS_PURPOSE_NE4	Verification if PURPOSE!=4
010-02	14	DEPRESS_Inlist	Valid value

ANXIETY	StartPosition	53	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	True
----------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	------

Failure Code	DCF Code	Data Validation	Additional Description Detail
011-01	15	ANXIETY_PURPOSE_NE4	Verification if PURPOSE!=4
011-02	15	ANXIETY_Inlist	Valid value

HYPERACT		StartPosition	54	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	True
Failure Code	DCF Code	Data Validation				Additional Description Detail					
012-01	16	HYPERACT_PURPOSE_NE4				Verification if PURPOSE!=4					
012-02	16	HYPERACT_Inlist				Valid value					
THOUGHT		StartPosition	55	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	True
Failure Code	DCF Code	Data Validation				Additional Description Detail					
013-01	17	THOUGHT_PURPOSE_NE4				Verification if PURPOSE!=4					
013-02	17	THOUGHT_Inlist				Valid value					
COGNITIV		StartPosition	56	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	True
Failure Code	DCF Code	Data Validation				Additional Description Detail					
014-01	18	COGNITIV_PURPOSE_NE4				Verification if PURPOSE!=4					
014-02	18	COGNITIV_Inlist				Valid value					
MEDICAL		StartPosition	57	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	True
Failure Code	DCF Code	Data Validation				Additional Description Detail					
015-01	19	MEDICAL_PURPOSE_NE4				Verification if PURPOSE!=4					
015-02	19	MEDICAL_Inlist				Valid value					
TRAUMATI		StartPosition	58	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	True
Failure Code	DCF Code	Data Validation				Additional Description Detail					
016-01	20	TRAUMATI_PURPOSE_NE4				Verification if PURPOSE!=4					
016-02	20	TRAUMATI_Inlist				Valid value					
SUBSTANC		StartPosition	59	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	True
Failure Code	DCF Code	Data Validation				Additional Description Detail					
017-01	21	SUBSTANC_PURPOSE_NE4				Verification if PURPOSE!=4					
017-02	21	SUBSTANC_Inlist				Valid value					
RELATION		StartPosition	60	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	True
Failure Code	DCF Code	Data Validation				Additional Description Detail					
018-01	22	RELATION_PURPOSE_NE4				Verification if PURPOSE!=4					
018-02	22	RELATION_Inlist				Valid value					

BEHAVIOR		StartPosition	61	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	True
Failure Code	DCF Code	Data Validation			Additional Description Detail						
019-01	27	BEHAVIOR_PURPOSE_NE4			Verification if PURPOSE!=4						
019-02	27	BEHAVIOR_Inlist			Valid value						
ADLFUNCT		StartPosition	62	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	True
Failure Code	DCF Code	Data Validation			Additional Description Detail						
020-01	28	ADLFUNCT_PURPOSE_NE4			Verification if PURPOSE!=4						
020-02	28	ADLFUNCT_Inlist			Valid value						
SOCLEGAL		StartPosition	63	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	True
Failure Code	DCF Code	Data Validation			Additional Description Detail						
021-01	25	SOCLEGAL_PURPOSE_NE4			Verification if PURPOSE!=4						
021-02	25	SOCLEGAL_Inlist			Valid value						
SCHOOL		StartPosition	64	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	True
Failure Code	DCF Code	Data Validation			Additional Description Detail						
022-01	26	SCHOOL_PURPOSE_NE4			Verification if PURPOSE!=4						
022-02	26	SCHOOL_Inlist			Valid value						
DANGSELF		StartPosition	65	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	True
Failure Code	DCF Code	Data Validation			Additional Description Detail						
023-01	29	DANGSELF_PURPOSE_NE4			Verification if PURPOSE!=4						
023-02	29	DANGSELF_Inlist			Valid value						
DANGOTH		StartPosition	66	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	True
Failure Code	DCF Code	Data Validation			Additional Description Detail						
024-01	30	DANGOTH_PURPOSE_NE4			Verification if PURPOSE!=4						
024-02	30	DANGOTH_Inlist			Valid value						
SECURITY		StartPosition	67	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	True
Failure Code	DCF Code	Data Validation			Additional Description Detail						
025-01	31	SECURITY_PURPOSE_NE4			Verification if PURPOSE!=4						
025-02	31	SECURITY_Inlist			Valid value						

CONTID1		StartPosition	88	Length:	5	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
Failure Code	DCF Code	Data Validation				Additional Description Detail					
027-01	32	CONTID1_Present				Verification the the field is present if required					
027-02	32	CONTID1_Length				Length Check for the Field					
027-03	32	CONTID1_Not0000_IsValid				Valid value if not 00000					
027-04	32	CONTID1_00000				Is 00000 if not AllowedPrimaryContractValue					
CONTID2		StartPosition	93	Length:	5	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
Failure Code	DCF Code	Data Validation				Additional Description Detail					
028-01	33	CONTID2_Length				Length Check for the Field					
CONTID3		StartPosition	98	Length:	5	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
Failure Code	DCF Code	Data Validation				Additional Description Detail					
029-01	34	CONTID3_Length				Length Check for the Field

Failure Code	DCF Code	Data Validation								Additional Description Detail	
005-01	5	FACILITYTYPE_InList								Verification that the value is valid	
FUND		StartPosition	17	Length:	1	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
Failure Code	DCF Code	Data Validation								Additional Description Detail	
006-01	9	FUND_InList								Verification that the value is valid	
PROGRAM		StartPosition	18	Length:	1	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
Failure Code	DCF Code	Data Validation								Additional Description Detail	
007-01	10	PROGRAM_InList								Verification that the value is valid	

Failure Code	DCF Code	Data Validation	Additional Description Detail
008-01	7	COSTCTR_InList	Verification that the value is valid
008-02	7	COSTCTR_Valid	Verification that the value is valid

Failure Code	DCF Code	Data Validation	Additional Description Detail
010-01	12	SERVDATE_IsDate	Verification that a valid Date was provided
010-02	12	SERVDATE_OnOrBefore_CD	Verification that the value is less than than the Current Date
010-04	31	SERVDATE_Valid_FiscalYear_BeforeEnd	
010-05	31	SERVDATE_Valid_FiscalYearWithAnyExtension_AfterStart	confirms if the service in a prior fiscal yr is being reported within the extended reporting interval for th

Failure Code	DCF Code	Data Validation	Additional Description Detail
011-01	14	UNITS_IsNumeric	Verification that the field is numeric
011-03	14	UNITS_Valid_AllMin	Verification that the value is valid
011-04	26	UNITS_Valid_Minutes	Verification that the value is valid
011-05	26	UNITS_Valid_Days	Verification that the value is valid

Failure Code	DCF Code	Data Validation	Additional Description Detail
012-01	35	PROCREQ_IsBlank	Verification that the value is Blank unless the Cost Center is 30
012-02	35	PROCREQ_IsValid	Verification that the value is valid if the Cost Center is not 30

Failure Code	DCF Code	Data Validation	Additional Description Detail
013-01	16	PARTICIP_IsNumeric	Verification that the field is numeric if provided

Failure Code	DCF Code	Data Validation	Additional Description Detail
014-01	19	STAFFID_Hyphen	Verification that there is a hyphen in the third character position
014-02	19	STAFFID_Numeric1	Verification that the first two characters are numeric
014-03	19	STAFFID_InList_First2	Verification that the first two characters are valid
014-04	19	STAFFID_Length	Verification that the characters after the hyphen (up to 9) are numeric

CONTID	StartPosition	79	Length:	5	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
---------------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
016-01	-1	CONTID1_Present	Verification the the field is present if required
016-02	-1	CONTID1_Length	Length Check for the Field
016-03	-1	CONTID1_Not0000_IsValid	Valid value if not 00000
016-04	-1	CONTID1_00000	Is 00000 if not AllowedPrimaryContractValue

SPROVID	StartPosition	84	Length:	10	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	----	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
017-01	12	SPROVID_Value	Verification that the Contractor ID is specified in the tblProviderSubProvider table
017-02	31	SPROVID_Hyphen	Verification that there is a hyphen in the third character position
017-03	31	SPROVID_Numeric1	Verification that the first two characters are numeric
017-04	31	SPROVID_Numeric2	Verification that the last seven characters are numeric
017-05	31	SPROVID_Valid	

CONTNPI	StartPosition	105	Length:	10	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	-----	---------	----	------------	-------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
022-02	32	CONTNPI_VALUE	Verification that the NPI is specified in the tblProviderSubProvider table

SERVNPI	StartPosition	115	Length:	10	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	-----	---------	----	------------	-------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
023-02	33	SERVNPI_VALUE	Verification that the NPI is specified in the tblProviderSubProvider table

FARS

SSN	StartPosition	1	Length:	9	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
------------	---------------	---	---------	---	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
001-01	35	SSN_Length	Length Check for SSN Field
001-03	35	SSN_Not000	Verification that if this is a Real SSN that the first three characters are not 000
001-14	???	SSN_DEMO_Exists_Cached	Verification that the SSN exists in the DEMO or DEMO Monolith table.

PROVID	StartPosition	10	Length:	10	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
---------------	---------------	----	---------	----	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
002-01	1	PROVID_Length	Length Check for CONTRACTORID Field
002-02	1	PROVID_Hyphen	Verification that there is a hyphen in the third character position
002-03	1	PROVID_Numeric1	Verification that the first two characters are numeric
002-04	1	PROVID_Numeric2	Verification that the last seven characters are numeric
002-05	1	PROVID_Value	Verification that CFBHN's Contractor ID has been provided as the value

DCFEVALPURP	StartPosition	20	Length:	1	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
--------------------	---------------	----	---------	---	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
003-01	4	DCFEVALPURP_inlist	DCFPurp value 1 -> 5
003-02	-1	DCFEVALPURP_EVALDATE_GTEExisting	Checks if the submitted Purpose code is greater than an existing purpose code
003-03	-1	DCFEVALPURP_EVALDATE_EQExisting	Checks if the submitted Purpose code is equal to an existing purpose code
003-04	-1	DCFEVALPURP_EVALDATE_LTEExisting	Checks if the submitted Purpose code is less than an existing purpose code

EVALDATE	StartPosition	21	Length:	8	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	----	---------	---	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
004-01	5	EVALDATE_IsDate	Verification that the value is a date
004-03	6	EVALDATE_OnOrBefore_CD	Verification that the value is less than than the Current Date
004-04	-1	EVALDATE_GTELastEVALDATE	
004-05	7	EVALDATE_OnOrAfter_DOB_Cached	Verification that the value is greater than the DOB

SPROVID	StartPosition	29	Length:	10	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	----	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
005-01	3	SPROVID_Value	Verification that the Contractor ID is specified in the tblProviderSubProvider table
005-02	3	SPROVID_Hyphen	Verification that there is a hyphen in the third character position

005-03	3	SPROVID_Numeric1	Verification that the first two characters are numeric
005-04	3	SPROVID_Numeric2	Verification that the last seven characters are numeric
005-05	31	SPROVID_Valid	

PROGPURPEVAL	StartPosition	39	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
---------------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
006-01	4	PROGPURPEVAL_DCFEVALPURP_NOA	Verification if DCFEVALPURP=5 (NOA) then PROGPURP value 1 -> 5
006-02	4	PROGPURPEVAL_6OrBlank	Verification if DCFEVALPURP 1 through 4 then purpurp = 6
006-03	4	PROGPURPEVAL_inlist	Program Purpose value 1 -> 6
006-05	4	PROGPURPEVAL_Set_default	If DCFEVALPURP 1 -> 4 and PROGPURP not provided set value to 6
006-06	4	PROGPURPEVAL_DCFEVALPURP_Not5	verifies if the PROGPURPEVAL is a value of 5

MGAFCORE	StartPosition	40	Length:	2	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
007-01	4	MGAFCORE_GTE1	verifies the MGAFCORE is valid and in a proper range
007-02	4	MGAFCORE_LTE99	verifies the MGAFCORE is valid and in a proper range
007-03	4	MGAFCORE_GTE1_LTE99	verifies the MGAFCORE is valid and in a proper range

EDUCATION	StartPosition	42	Length:	2	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False

CNTYSERV	StartPosition	128	Length:	2	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	-----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

036-01 -1 CNTYSERV_InList Length Check for the Field

OUTI

PROVID	StartPosition	1	Length:	10	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
Failure Code	DCF Code	Data Validation			Additional Description Detail					
001-01	-1	PROVID_Length			Length Check for CONTRACTORID Field					
001-02	-1	PROVID_Hyphen			Verification that there is a hyphen in the third character position					
001-03	-1	PROVID_Numeric1			Verification that the first two characters are numeric					
001-04	-1	PROVID_Numeric2			Verification that the last seven characters are numeric					
001-05	-1	PROVID_Value			Verification that CFBHN's Contractor ID has been provided as the value					
SITEID	StartPosition	11	Length:	2	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
Failure Code	DCF Code	Data Validation			Additional Description Detail					
002-06	-1	SITEID_InSiteIDTable			Verification that the Site ID is specified in the tblLOOKUPSITEID table					
SSN	StartPosition	13	Length:	9	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
Failure Code	DCF Code	Data Validation			Additional Description Detail					
003-01	-1	SSN_Length			Length Check for SSN Field					
003-03	-1	SSN_Not000			Verification that if this is a Real SSN that the first three characters are not 000					
003-14	???	SSN_DEMO_Exists_Cached			Verification that the SSN exists in the DEMO or DEMO Monolith table.					
RECOUNTY	StartPosition	32	Length:	2	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
Failure Code	DCF Code	Data Validation			Additional Description Detail					
005-01	-1	RECOUNTY_InList			Verification that the value is valid					
EDUCATION	StartPosition	34	Length:	2	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
Failure Code	DCF Code	Data Validation			Additional Description Detail					
006-01	5	EDUCATION_Length								
006-02	5	EDUCATION_InList			confirms the submitted value matches an allowed value					
MARITAL	StartPosition	36	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
Failure Code	DCF Code	Data Validation			Additional Description Detail					
007-01	6	MARITAL_Length								
007-02	6	MARITAL_InList			confirms the submitted value matches an allowed value					

HLTHSTAT	StartPosition	37	Length:	1	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail
 008-01 7 HLTHSTAT_InList confirms the submitted value matches an allowed value

PREGTRIM	StartPosition	38	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail
 009-01 8 PREGTRIM_Length
 009-02 8 PREGTRIM_InList confirms the submitted value matches an allowed value
 009-04 -1 PREGTRIM_Value_Present_Male
 009-05 N/A PREGTRIM_Value_Male_Cached

ADMTYPE	StartPosition	39	Length:	1	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail
 010-01 9 ADMTYPE_InList confirms the submitted value matches an allowed value

DRUGCRT	StartPosition	40	Length:	1	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail
 011-01 10 DRUGCRT_InList confirms the submitted value matches an allowed value

CHILDWEL	StartPosition	41	Length:	1	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail
 012-01 11 CHILDWEL_InList confirms the submitted value matches an allowed value

RESTAT	StartPosition	42	Length:	2	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
---------------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail
 013-01 12 RESTAT_InList confirms the submitted value matches an allowed value

DEPCRMST	StartPosition	44	Length:	2	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

CONTID1	StartPosition	169	Length:	5	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	-----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation

Additional Description Detail

066-01 -1 CONTID1_Present Verification the the field is present if required

066-02 -1 CONTID1_Length Length Check for the Field

066-03 36 CONTID1_Not0000_IsValid Valid value if not 00000

066-04 W40 CONTID1_00000 Is 00000 if not AllowedPrimaryContractValue

CONTID2	StartPosition	174	Length:	5	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	-----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation

Additional Description Detail

067-01 -1 CONTID2_Length Length Check for the Field

CONTID3	StartPosition	179	Length:	5	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	-----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation

Additional Description Detail

068-01 -1 CONTID3_Length Length Check for the Field

MHDIAGNOSIS	StartPosition	184	Length:	1	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
--------------------	---------------	-----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail
069-01 -1 MHDIAGNOSIS_InList confirms the submitted value matches an allowed value

SOCIALCONNECT	StartPosition	185	Length:	2	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------------	---------------	-----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail
070-01 186 SOCIALCONNECT_InList confirms the submitted value matches an allowed value

SCHOOLSTATUS	StartPosition	187	Length:	1	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
---------------------	---------------	-----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail
071-01 187 SCHOOLSTATUS_Present
071-02 187 SCHOOLSTATUS_InList confirms the submitted value matches an allowed value

OUTD

PROVID	StartPosition	1	Length:	10	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
---------------	---------------	---	---------	----	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
001-01	-1	PROVID_Length	Length Check for CONTRACTORID Field
001-02	-1	PROVID_Hyphen	Verification that there is a hyphen in the third character position
001-03	-1	PROVID_Numeric1	Verification that the first two characters are numeric
001-04	-1	PROVID_Numeric2	Verification that the last seven characters are numeric
001-05	-1	PROVID_Value	Verification that CFBHN's Contractor ID has been provided as the value

SITEID	StartPosition	11	Length:	2	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
---------------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
002-01	2	SITEID_Length	Length Check for the Field
002-03	2	SITEID_PURPOSE_Is4	
002-05	2	SITEID_Present	
002-07	-1	SITEID_InSiteIDTable	Verification that the Site ID is specified in the tblLOOKUPSITEID table

SSN	StartPosition	13	Length:	9	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
------------	---------------	----	---------	---	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
003-01	-1	SSN_Length	Length Check for SSN Field
003-03	-1	SSN_Not000	Verification that if this is a Real SSN that the first three characters are not 000
003-14	???	SSN_DEMO_Exists_Cached	Verification that the SSN exists in the DEMO or DEMO Monolith table.

RECOUNTY	StartPosition	32	Length:	2	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
005-01	-1	RECOUNTY_InList	Verification that the value is valid

DEDUCATION	StartPosition	34	Length:	2	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-------------------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
006-01	5	DEDUCATION_Length	
006-02	5	DEDUCATION_InList	confirms the submitted value matches an allowed value

DMARITAL	StartPosition	36	Length:	1	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
007-01	6	DMARITAL_Length	

007-02 6 DMARITAL_InList confirms the submitted value matches an allowed value

DHLTHSTAT	StartPosition	37	Length:	1	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

008-01 7 DHLTHSTAT_InList confirms the submitted value matches an allowed value

DPREGTRI	StartPosition	38	Length:	1	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

009-01 8 DPREGTRI_Length

009-02 8 DPREGTRI_InList confirms the submitted value matches an allowed value

009-04 -1 DPREGTRI_Value_Male_Cached

DADMTYPE	StartPosition	39	Length:	1	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

010-01 9 DADMTYPE_InList confirms the submitted value matches an allowed value

DRUGCRT	StartPosition	40	Length:	1	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
---------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

011-01 10 DRUGCRT_InList confirms the submitted value matches an allowed value

DCHILDWEL	StartPosition	41	Length:	1	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

012-01 11 DCHILDWEL_InList confirms the submitted value matches an allowed value

RESTAT	StartPosition	42	Length:	2	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
--------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

013-01 12 RESTAT_InList confirms the submitted value matches an allowed value

DDEPCRMST	StartPosition	44	Length:	2	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

014-01 -1 DDEPCRMST_InList confirms client age

014-04 164 DDEPCRMST_LT18_Cached confirms client age

014-05 165 DDEPCRMST_GTE18_Cached confirms client age

DPROBPRI	StartPosition	46	Length:	2	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

015-01 14 DPROBPRI_Not99

015-02 14 DPROBPRI_InList confirms the submitted value matches an allowed value

DPROBSEC	StartPosition	48	Length:	2	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code ^{DCF} Code Data Validation Additional Description Detail

016-01 15 DPROBSEC_InList confirms the submitted value matches an allowed value

DPROBTER	StartPosition	50	Length:	2	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code ^{DCF} Code Data Validation Additional Description Detail

017-01 16 DPROBTER_InList confirms the submitted value matches an allowed value

DROUTPRI	StartPosition	52	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code ^{DCF} Code Data Validation Additional Description Detail

Failure Code	DCF Code	Data Validation	Additional Description Detail
036-01	-1	SADIAG_DecimalPlace	
036-02	-1	SADIAG_GTE290	
036-03	-1	SADIAG_LTE319	
036-04	-1	SADIAG_InRange	

036-05	-1	SADIAG_999	
036-06	-1	SADIAG_799.9	
036-07	-1	SADIAG_Valid	
036-08	-1	SADIAG_InList	confirms the submitted value matches an allowed value

MHDIAG	StartPosition	138	Length:	6	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
---------------	---------------	-----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

037-01	209	MHDIAG_DecimalPlace	
037-02	-1	MHDIAG_GTE290	
037-03	-1	MHDIAG_LTE319	
037-04	-1	MHDIAG_InRange	
037-05	-1	MHDIAG_999	
037-06	-1	MHDIAG_799.9	
037-07	209	MHDIAG_Valid	
037-08	209	MHDIAG_InList	confirms the submitted value matches an allowed value

Marchman	StartPosition	144	Length:	1	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	-----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

038-01	13	MARCHMAN_Inlist	confirms the submitted value matches an allowed value
--------	----	-----------------	---

MHDIagnosis	StartPosition	145	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
--------------------	---------------	-----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

039-01	-1	MHDIAGNOSIS_YesNo	
--------	----	-------------------	--

Vetstatus	StartPosition	146	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
------------------	---------------	-----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

040-01	208	VETSTATUS_YesNoUnkown	
--------	-----	-----------------------	--

EMPL	StartPosition	147	Length:	2	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-------------	---------------	-----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

041-01	44	EMPL_InList	confirms the submitted value matches an allowed value
--------	----	-------------	---

CONTNUM1	StartPosition	149	Length:	5	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	-----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

042-01	-1	CONTNUM1_Present	Verification the the field is present if required
--------	----	------------------	---

042-02	W40	CONTNUM1_Length								Length Check for the Field
042-03	36	CONTNUM1_Not0000_IsValid								Valid value if not 00000
042-04	36	CONTNUM1_00000								Is 00000 if not AllowedPrimaryContractValue

CONTNUM2	StartPosition	154	Length:	5	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	-----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code ^{DCF} Code Data Validation Additional Description Detail

043-01 -1 CONTNUM2_Length Length Check for the Field

CONTNUM3	StartPosition	159	Length:	5	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	-----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code ^{DCF} Code Data Validation Additional Description Detail

044-01 -1 CONTNUM3_Length Length Check for the Field

SOCIAL	StartPosition	164	Length:	2	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
---------------	---------------	-----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code ^{DCF} Code Data Validation Additional Description Detail

045-01 186 SOCIAL_Inlist confirms the submitted value matches an allowed value

SCHOOL	StartPosition	166	Length:	1	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
---------------	---------------	-----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code ^{DCF} Code Data Validation Additional Description Detail

046-01 187 SCHOOL_Inlist confirms the submitted value matches an allowed value

PERF

PROVID	StartPosition	1	Length:	10	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
---------------	---------------	---	---------	----	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
001-01	-1	PROVID_Length	Length Check for CONTRACTORID Field
001-02	-1	PROVID_Hyphen	Verification that there is a hyphen in the third character position
001-03	-1	PROVID_Numeric1	Verification that the first two characters are numeric
001-04	-1	PROVID_Numeric2	Verification that the last seven characters are numeric
001-05	-1	PROVID_Value	Verification that CFBHN's Contractor ID has been provided as the value

SITEID	StartPosition	11	Length:	2	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
---------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
002-08	-1	SITEID_InSiteIDTable	Verification that the Site ID is specified in the tblLOOKUPSITEID table

SSN	StartPosition	13	Length:	9	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
------------	---------------	----	---------	---	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
003-01	-1	SSN_Length	Length Check for SSN Field
003-03	-1	SSN_Not000	Verification that if this is a Real SSN that the first three characters are not 000
003-14	???	SSN_DEMO_Exists_Cached	Verification that the SSN exists in the DEMO or DEMO Monolith table.

PURPOSE	StartPosition	32	Length:	1	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	---	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
005-01	4	PURPOSE_InList	Verification that the value is valid
005-02	-1	PURPOSE_EVALDATE_GTExisting	Checks if the submitted Purpose code is greater than an existing purpose code
005-03	-1	PURPOSE_EVALDATE_EQExisting	Checks if the submitted Purpose code is equal to an existing purpose code
005-04	-1	PURPOSE_EVALDATE_LTExisting	Checks if the submitted Purpose code is less than an existing purpose code

EVALDATE	StartPosition	33	Length:	8	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	----	---------	---	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
006-01	5	EVALDATE_IsDate	Verification that the value is a date
006-03	71	EVALDATE_OnOrBefore_CD	Verification that the value is less than than the Current Date
006-04	70	EVALDATE_OnOrAfter_DOB_Cached	Verification that the value is greater than the DOB

RATERID	StartPosition	41	Length:	12	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	----	------------	------	-----------	-------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail

007-01	-1	RATERID_Hyphen	Verification that there is a hyphen in the third character position
007-02	-1	RATERID_Numeric1	Verification that the first two characters are numeric
007-03	-1	RATERID_InList_First2	Verification that the first two characters are valid
007-04	-1	RATERID_Numeric2	Verification that the characters after the hyphen (up to 9) are numeric

INITEVADA	StartPosition	53	Length:	8	Mandatory:	True	KeyField:	False	AllowedToStartWithWhiteSpace:	False
------------------	---------------	----	---------	---	------------	------	-----------	-------	-------------------------------	-------

Failure Code ^{DCF} Code Data Validation Additional Description Detail

008-01	7	INITEVADA_IsDate	
008-04	-1	INITEVADA_PURPOSE_AdmissionMatch_Is1	
008-05	-1	INITEVADA_EVALDATE_Match	
008-06	-1	INITEVADA_OnOrAfter_DOB_Cached	

INCOSRC	StartPosition	61	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code ^{DCF} Code Data Validation Additional Description Detail

009-01	-1	INCOSRC_InList	confirms the submitted value matches an allowed value
--------	----	----------------	---

PSYCHINCOM	StartPosition	62	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-------------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code ^{DCF} Code Data Validation Additional Description Detail

010-01	-1	PSYCHINCOM_PURPOSE	Verification of Yes or No - PURPOSE null
010-02	-1	PSYCHINCOM_YESNO	Verification of Yes or No

PROGNOSIS	StartPosition	63	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
------------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code ^{DCF} Code Data Validation Additional Description Detail

011-01	12	PROGNOSIS_PURPOSE	Prognosis_PURPOSE check
011-02	12	PROGNOSIS_YESNO	Prognosis_Verification of Yes or No

LEGASTAT	StartPosition	64	Length:	2	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code ^{DCF} Code Data Validation Additional Description Detail

012-01	-1	LEGASTAT_PURPOSE_NOT4_Present	
012-02	-1	LEGASTAT_Present	
012-03	-1	LEGASTAT_Age_LT18_Cached_INITEVADA	Age LT 18
012-04	-1	LEGASTAT_Present_Age_LT18_Valid	
012-05	-1	LEGASTAT_Age_GT17_Cached_INITEVADA	Age GT 17
012-06	-1	LEGASTAT_Present_Age_GT17_Valid	

ADMTYPE	StartPosition	66	Length:	1	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

013-01 14 ADMTYPE_PURPOSE

013-02 14 ADMTYPE_LTE4

DAYSCOM	StartPosition	67	Length:	2	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

014-01 17 DAYSCOM_PURPOSE Numeric check

014-02 17 DAYSCOM_PURPOSE Length check

014-03 16 DAYSCOM_PURPOSE_LTE30 Value <= 30

014-04 16 DAYSCOM_PURPOSE_NOT_NEG Value not negative

DAYSWORK	StartPosition	69	Length:	2	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	False
-----------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	-------

Failure Code DCF Code Data Validation Additional Description Detail

015-03 19 DAYSWORK_PURPOSE_NOT4Or5 Purpose NOT 4;5

015-04 19 DAYSWORK_EXISTS_Length_AGE_LTE18 Exists

015-05 19 DAYSWORK_Numeric Numeric check

015-06 19 DAYSWORK_LTE30 Number of days < 22

015-07 19 DAYSWORK_GT0 Number of days >=0

015-08 19 DAYSWORK_GT0_LTE30 Number of Days in range

015-09 19 DAYSWORK_EXISTS_Length Field length

015-11 19 DAYSWORK_AGE_GT17_Cached_INITEVADA AGE > 17

INCOPAY	StartPosition	71	Length:	4	Mandatory:	False	KeyField:	False	AllowedToStartWithWhiteSpace:	True
----------------	---------------	----	---------	---	------------	-------	-----------	-------	-------------------------------	------

003-14	22	SSN_Pseudo_Day	Verification that if this is a Pseudo SSN that the sixth and seventh characters match the Day of Birth
003-15	22	SSN_Pseudo_Year	Verification that if this is a Pseudo SSN that the eighth and ninth characters match the Year of Birth

003-16	-1	SSN_NotAContiguousOrRepeatingNumber	Verification that the SSN does contain the same number for all positions
003-17	-1	SSN_Pseudo_FirstInitial_IsLetter	validates a pseudoSSN being used as the new SSN
003-18	-1	SSN_Pseudo_MiddleInitial_IsLetter	validates a pseudoSSN being used as the new SSN
003-19	-1	SSN_Pseudo_LastInitial_IsLetter	validates a pseudoSSN being used as the new SSN

SPROVID	StartPosition	29	Length:	10	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
----------------	---------------	----	---------	----	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
004-01	4	SPROVID_Value	Verification that the Provider ID is specified in the tblProviderSubProvider table
004-02	4	SPROVID_Hyphen	Verification that there is a hyphen in the third character position
004-03	4	SPROVID_Numeric1	Verification that the first two characters are numeric
004-04	4	SPROVID_Numeric2	Verification that the last seven characters are numeric
004-05	4	SPROVID_Valid	

DEL_ASAM

PROVID	StartPosition	1	Length:	10	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
---------------	---------------	---	---------	----	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
001-06	-1	PROVID_Record_Exists	Verification that the key record exists
001-07	-1	PROVID_Datatypes_correct	Verification that the data types are correct
001-08	-1	PROVID_ADMIDATE_FORMAT_CORRECT	Verification that the ADMIDATE format is correct
001-09	-1	PROVID_ASAMDATE_FORMAT_CORRECT	Verification that the ASAMDATE format is correct

DEL_CFARS

SSN	StartPosition	1	Length:	9	Mandatory:	True	KeyField:	True	AllowedToStartWithWhiteSpace:	False
------------	---------------	---	---------	---	------------	------	-----------	------	-------------------------------	-------

Failure Code	DCF Code	Data Validation	Additional Description Detail
001-14	-1	SSN_Record_Exists	Verification that the key record exists
001-15	-1	SSN_Datatypes_correct	Verification that the data types are correct
001-16	-1	SSN_CFARDATE_FORMAT_CORRECT	Verification that the CFARDATE format is correct
001-17	-1	SSN_Validate_CFARS_Deletion	Verify if dependent records exist before delete of CFARS record

DEL_EVNT
